24 March 1956

MEMORANDUM FOR: Acting Director of Personnel

SUBJECT : Ceiling for Junior Career Development Program.

STATINTL

1. On 23 March 1956, following a discussion with Mr. [ ] concerning the Junior Career Development Program, General Cabell advised me that he was interested in seeing the Junior Career Development Program expanded and stated that its expansion should not be inhibited by too rigid a personnel ceiling.

2. I explained to General Cabell that it had been my impression that we simply had not been able to interest people in this Program sufficiently to fill the positions already authorized, but that in any case I concurred in removing rigid ceiling control. I also explained that the Inspector General and I recommended the merging of this Program with the Junior Officer Trainee Program and that a paper to this effect had been forwarded to the Director.

3. Whether or not the Director approves of this merger, the principle of allowing the JCD and JOF Programs to operate without regard to a fixed and rigid ceiling is sound and is hereby directed.
